GILBERT NETBALL THE BRAND

Power. Passion. Performance.

We are a world renowned netball brand committed to global distinction and excellence. We assist with the development of this much loved game by strengthening relationships within the netball family to equip and enable all participants to grow the game at every level. Our products are sold in each netball playing region and country around the world where we continually strive to improve alongside our partners and the netball elite.

Gilbert Netball launched its first netball range back in the 1990's and has since become one of the most established global netball brands. A leading provider of equipment for netball which has adapted its unrivalled ball engineering from rugby to netball means we are able to provide the best performing patented grip patterns available. Gilbert has also perfected the use of new synthetic technologies as seen with the INF Synergie X5 Match Ball. This continued evolution of Gilbert's technology has ensured that we have maintained our position as a market leader by retaining the high standards set by James Gilbert over 190 years ago. The new Gilbert Netball range of team wear, clothing and equipment are endorsed by international players and netball teams worldwide and have been developed specifically to meet the requirements of our netballers, officials and supporters.

Our new shoe range is tried and tested by some of the best global netballers, who choose to wear Gilbert to compete at the highest level. Both the Evolution and Flare shoe offer netball specific benefits to improve performance for all players at every level of the game.

Improvements have been made to the range to reflect your consumer desires both on and off the court, and thus support the netball family at every level to achieve their goals.

For more information about our ambassadors and ranges please visit our website:

GEORGE FISHER

THE MAVERICK

Saracens Mavericks player, England International

and Gilbert Netball ambassador.

A Gilbert Netball ambassador for four years, George Fisher is becoming a strong mainstay within the netball community and the Gilbert Netball brand. Her current ambassador ball is amongst the most popular and with a new design on the way (watch this space for more information) there are huge changes in store for this young athlete. "I have totally loved being a Gilbert ambassador, it's an awesome brand and something that I'm really proud of. You feel like you're part of an extended family. In the time that I've been with Gilbert Netball I've been able to wear, train and play in their netball sports range and even appear in their catalogues, leading to my claim of being a small time "model". I've been privileged to release my own signature ball and meet many likeminded netball loving people both at Gilbert and through many appearances as an ambassador for them."

One of the major changes for George was the decision to leave Wasps and move to Saracens Mavericks, the club where George started her career at the age of thirteen. "The move to Saracens Mavericks wasn't an easy one as I'm sure you can imagine. To leave the twice champion Superleague franchise (Wasps), who have an amazing set up, you'd have to be crazy right?! However, for me, it was like moving home. I started my netball journey with Mavericks and it just felt like the right time to return. I'd left for two years and in that time I felt that I had grown up as both a person and a player. I'm also studying at the University of Hertfordshire in Hatfield and seeing as the Saracens Mavericks train here, it makes sense to combine the two. It cuts my weekly travelling time down by ten hours a week, which is an important factor when your trying to study for a degree and, as I'm dyslexic, I need all the extra time I can get! I totally love the vision that Mavericks have and being part of it as it develops and grows is amazing."

Domestic netball changes are not the only ones happening in George's world right now either, with her re-selection to the England Roses programme, there are also international changes afoot. "My re-selection to the full-time England Roses programme is a huge privilege and selection is never a given. I am really excited to get started and see where the journey takes me. There's been lots of changes this year, I've had to say goodbye to Tracey Neville and Jo Adams, both of who are awesome women! However, I'm looking forward to working with Jess Thirby and waiting to see who Jo's replacement will be and how they continue building our amazing sport. Exciting times!"

GILBERT FOOT WEAR

STEPPING UP YOUR GAME

Worn by international athletes and club players alike, meet your next pair of trainers.

The 2020 Gilbert shoe range was launched at the Netball World Cup earlier this year and was worn by many of the elite international players who featured.

At Gilbert Netball we are always looking to evolve and produce the best in category products and the range has always benefited from international players giving us their feedback which we incorporate into our design and production processes, taking any and all improvements and combining them to make an outstanding collection.

Whenever we produce a shoe, we look to create something which will provide benefits for players in all positions, this not only showcases great versatility, but also the advancements that have been made in netball specific technologies designed to boost netball specific performance when out on the court.

For 2020 we have introduced the Evolution shoe. It is a completely new concept and has been built from the ground up and features the Pivot1 Outsole - an outsole which utilises key pivot points to offer a shoe with specific netball dynamics that enables quick changes of direction. It also features a Duo Litefoam midsole which is combined with gel tech to ensure superior comfort and explosive power, the outstanding cushioning is ideal for the more active players, and this, combined with the ultra light fluid fit upper ensures a shoe which fits like a second skin and is ultra lightweight.

The popular Flare shoe has been updated for 2020 - the low profile shoe provides a stable base, combined with the Powercradle Pro system on the upper to lock the foot in place. The Flare is an ideal footwear option for the power player and the goal shooter providing them with a shoe that offers the ultimate in lateral foot support.

EVOLUTION

CORAL/SILVER

Fluid-Fit Technology - A breathable upper which adds support and a second skin-like fit.

Pivot1 - Improves grip and durability. Xtra-dura rubber provides traction and durability.

Impact Protection System (IPS) - Antibacterial foam to absorb impact energy.

Hiapoli Pro - Provide maximum energy transfer whilst preserving the life of the shoe.

Gel-tech Pro - Inserts attenuate shock during impact and take off during play.

Duo Lite Foam+ - Returns to its original shape for great cushioning.

ProLast L - Improved lasting board technology with a Ladies specific fit.

Available in sizes 3 - 11 (Half sizes available in sizes 4 - 11).

Coral/Silver only.

BETH CORDEN THE DEFENDER

Adelaide Thunderbirds player, England International
and Gilbert Netball ambassador.

Not many players have achieved quite as much as Beth Cobden when it comes to their playing careers. She has played for Loughborough Lightning and Manchester Thunder in the Vitality Superleague, been named in the VNSL All Star team at wing defence twice and played as a regular Vitality Rose for many seasons, winning gold with England at Commonwealth Games, incase you'd forgotten! "I absolutely love playing for the Roses. It's been the most amazing experience to travel the world and play with and against the very best! The team has created an awesome culture and winning mentality over the past few years and I feel very proud to be a part of that."

Recently there has been more news surrounding Beth and her netballing career, some good and some not so good. Good news first - she has just moved from the Vitality Superleague to Suncorp Super Netball having signed with Adelaide Thunderbirds to pursue a dream career move. The not so good news? Beth recently suffered her third Anterior Cruciate Ligament injury which put her out of contention for both the Netball World Cup and the starting line-up with the Thunderbirds. "Playing in the Suncorp was a goal of mine and when the opportunity arose for me to be a Thunderbird I was so excited. Although the season didn't turn out as I had planned I have learned a lot and enjoyed my experience in Australia. The Thunderbirds have been great looking after me and helping me deal with my injury, I am very grateful to them. A lot of people have questioned if I want to get back to playing after sustaining a third ACL injury - and yes, I do! It has been a tough few months but I feel in a good place now. My long term goals remain the same. I want to play in another Commonwealth Games and go to a World Cup. I would also love to play in the Suncorp for a full season."

THE NEW CONTROL-A-BALLS DEVELOPING SKILLS

Be aware of every situation and ready to react to anything

In the most testing games of netball, players need to be aware of every situation and be ready to react to anything their opponents may throw at them.

In order to enhance their ever developing skills, players need new initiatives to test their reactions. Made up of 5 balls, the Control-A-Balls each behave slightly differently. The balls included are: match, light, heavy, grip-less and unstable. Using these different balls at different times before using a standard ball challenges the player and advances their responsiveness in a match situation.

The Control-A-Balls are available in sets of size 5 so players have the opportunity to develop their skills with this innovative system.

If you are wanting to enhance your performance when it counts, the Control-A-Balls are exactly what you need to take training to the next level this season.

CONTROL-A-BALLS

TRAINING AID

Set of five balls to improve passing and catching.
Each ball behaves differently to challenge the user during training.

Match Ball

Standard weight and grip pattern of the Spectra Ball.

Heavy Ball

Approximately 650g, the player must adapt to make accurate passes.

Light Ball

Approximately 300g, the player must adapt to make accurate passes.

Gripless Ball

Standard Spectra weight, but this ball is smooth, so in different conditions it can be very grippy or incredibly slippery.

Unstable Ball

Weighs 400g and then the user adds 280g of water. Within the pack there is a pump that allows water to be added to the inner bladder. This makes the ball completely unstable as the water moves within it.

Available in sizes 5 only.

Available in Fluro Pink only.

86892105

BEE NETBALL

FUN, FRIENDLY, FAIRPLAY

Enabling children to learn and develop through schools, clubs and communities.

Bee Netball isn't complicated, it's simply a way to enable children to play the game while learning and developing a whole heap of other important skills.

There is a framework which outlines what is achievable and appropriate for children at various ages and stages, and this is brought to life through activity cards and a menu of competition or ways to play which ensures it is appropriate for all children, and not just those who have mastered all of the skills.

The game also has a special Bee ball which has been designed and supplied by Gilbert Netball that seeks to build character and intrigue within the children, helping to grow their interest and affiliation with the game. This is supplemented by a Netball goodie pack which each child will receive in order to support their play and build on the enjoyment the sessions provide.

Bee Netballs and all other Bee Netball products including member packs and kits to get started at your school or club are exclusively available through the England Netball website:

www.englandnetballstore.co.uk/bee-netball

the team and
support everyone.

PEACE PROSCOVIA THE CAPTAIN

Sunshine Coast Player, Ugandan International Captain
and Gilbert Netball ambassador.

The proud captain of the Ugandan national team for the past six years, Peace Proscovia has led the team through some strong performances, placing seventh and eighth at the last two World Cups after a series of DNO's. The team has gone from strength to strength, and although she is unlikely to admit it, it's in no small part due to Peace's stowic leadership. "It's a great pleasure to captain team Uganda and I thank the management team for entrusting me to be captain for the last six years now. It means a lot to me and shows the power of netball to creating leadership opportunities."

Until recently, Peace had spent much of her time studying a Masters in Marketing and honing her sporting abilities on UK soil with the team Loughborough Lightning, "I needed to advance my knowledge in marketing, and at the same time, play Netball and achieve my educational dream. It was easy to juggle the two as Loughborough University made it very flexible for me. The training program at Loughborough Lightning was so flexible for a student which made it really easy for me."

But in 2019 Peace signed a new deal which was described as a 'massive coup', moving to Australia to play for Sunshine Coast Lightning, "It's one of the best things that has happened to me in my career. The game here seems more intense and playing among the best players is my favourite thing."

Always aware of her roots, Peace has maintained an unwavering sense of humility throughout her career and strives to use her own success, both on and off the court, as a means to encourage others and showcase what can be achieved "My main goal is to inspire people who come from less affluent backgrounds to achieve their dreams." And whether this is through the sales of her signature ball, her skill on the court or her educational achievements there is no denying that dedication, hardwork and dogged determination can take you very far in life. However, the ability to stay humble, keep your cool and still put others first, whilst all the while climbing to the top and achieving your own dreams and aspirations, now that takes a very special kind of professional.

PEACE PROSCOVIA

I designed it with the young people in mind. The quotes "This Girl Has A Talent" and "We Never Give Up", mean that whatever happens, if you want to achieve things in life, you have to push for it and keep going.

86891605

GEVA MENTOR

I love the idea that almost everything in life has a counterpart, so Yin & Yang came to mind, as opposites that complement each other. My quote encompasses the balance shown on the rest of the ball, and the winking smile is cheeky and it's very me – it was nice to get this onto the ball as a final sign off.

Available in size 5 only.

Available in multi-coloured only.

KALIFA McCOLLIN THE DRAGON

Celtic Dragons Player, Trinidad and Tobago

International and Gilbert Netball ambassador.

Ask most netballers about Kalifa McCollin and they will tell you that she's a good singer and a self-proclaimed comedian. They will also tell you that this player is the personification of consistency.

She started her Netball Superleague career with Celtic Dragons in 2016, and later moved to Benecos Mavericks. Her professional career went from strength to strength with the club, but what prompted the return to Celtic Dragons? "When I left, my only thoughts were for growth and a new environment. After my second season with the Benecos Mavericks, I had decided that I'd return 'home'. The team [Celtic Dragons] had an entirely different look, we had players from Fiji as well as the England set-up and Jamaica and we were positioned to give the top teams a real run for their money. By the end of that season we had placed 7th, which was a massive improvement, and to top it off, I was named player of the season by the Celtic Dragons and Vitality placed me in the All Star 7 as the best Goal Attack in the league. I was honoured, and quite pleased, to know that my hard work was recognized throughout the season."

Shortly after this show-stopping season, Kalifa got the call to play in the Trinidad and Tobago international line up, an honour for any athlete, but could her success in the Superleague translate out on to the world stage?

"I returned home to be with the Trinidad and Tobago National team and preparations had already begun for the Netball World Cup. I had one month to familiarise myself with some of the new players and the sets that were being taught, training and match play were a bit of a task as I had just completed a very tough Superleague season, but I still pushed because I knew the Netball World Cup would be no easy feat. It was my second World Cup and I was extremely excited. In 2015 I finished the competition with a 92% shooting average and this time around my shooting partner, Sammy Wallace and I were named as one of the best shooting duos in the competition. I always try to maintain a high shooting accuracy and that consistently showed as I managed to score 100% in two matches. I think I can walk away from this year's World Cup knowing that I gave my best for my country."

So what's next for this grafter of a Gilbert Girl? Stick or twist? "Moving is always difficult, especially when your teammates are much more than that – they're my family, we're like sisters. I had been in discussions with a few franchises from different leagues, but my heart kept leading me back to the Dragons. In the end, I had a sit-down with my agent and discussed what it is that I really want to do with my netball career and eventually I put my big girl boots on and signed with Southern Steel in New Zealand. I said to myself, 'good things happen outside of your comfort zone.'"

PLAYERS TIME OUT
ONLY COMES ONCE
YOU'VE BEEN
KNOCKED OUT!!

TAMSIN GREENWAY THE LEGEND

Former Director of Netball, England International
and Gilbert Netball ambassador.

Having been involved in elite netball for nearly 20 years Tamsin Greenway is about to write some new chapters in her life, both on and off the court. Now she is able to take a break from the travelling and training, she finally has her weekends back to hang with her friends and family. "I think most netballers know about my life and what I'm doing, but my baby boy is due in November, so I'm looking forward to more chaotic family life! I'll also be getting my 6 year old Jamie into her first netball club so I'm hoping I'm going to be a chilled out spectator on the side lines."

The journey from the court to the sidelines began last year when Tamsin started working with the media as part of the team at Sky, helping to promote netball in the build-up to the World Cup. "Being part of Sky was incredible and if you can't play or coach it's the closest you can get to all the action. It's been amazing to meet so many people who love our sport and who are on this journey as the game changes. I'm really lucky that different opportunities keep arising, so I'm sure whatever happens next I'll be busy. "

Seeking more of the same, Tamsin hopes to continue working with the team at Sky, a team who she says are a brilliant group, who love the game. "The analysis is my favourite [part] and I get very excited when they let me play with the Sky pad! I'm hoping we get to do more off the court work, and of course articles and social media work through the season so we keep the momentum going. It's a really exciting time to take on different challenges in netball and help promote and grow the game I love – wish me luck!"

A brand ambassador who has been everything we could have asked for, with an illustrious on-court career, we at Gilbert Netball wish Tamsin all the best for her future endeavours. We all know that if she's as good off the court as she was on it, then the future of netball is in a safe pair of hands.

FOR PLAYERS BY PLAYERS

Every garment, designed and refined.

Laboured over by our in-house garment design team, each piece of Gilbert Netball clothing is specifically tailored to meet the demands of the sport at any level. Whether having to withstand the rigours of children and their rough and tumble playing style or being worn by world-class athletes and keeping up with their fast-paced twists and turns as they sweat it out on court, our clothing is designed to perform.

Listening to our global ambassadors is something that is key to creating our clothing ranges and their invaluable input is often what sets Gilbert Netball apart from it's competitors. The insight of a professional player and the game at the highest levels often means that we are able to take their feedback about fit, comfort and durability and extrapolate it out across all the clothing we produce. This ensures that the Gilbert Netball clothing range has something for every type of player, from the casual weekender right through to the hardcore internationals, our garment ranges are not only packed full of technical features and look great, but are also designed to compliment your body and playing style to offer an unhindered performance from both you and your clothing.

BAGS AND TRAINING EQUIPMENT

YOU PLAY YOUR WAY

We've got you covered.

As with all sports, the big bits of kit are always important, but the smaller items can be just as invaluable when it comes to honing your skills and abilities.

Whether you're a player looking for the perfect kit bag to get you and your stuff to and from matches and training sessions or a coach looking for equipment that will help your team develop their speed and agility, the Gilbert Netball training equipment range will have something for you. We put just as much effort into producing our training equipment as we do our shoes, balls and clothing so that you can be sure every component of your game is at its best.

ABOUT SIZING

Sizing inconsistencies can be attributed to a number of factors and vary according the different fabrics and cuts in our range. Our Teamwear collection is available in four fits across the entire apparel line. Each is designed to meet different needs for movement, protection and versatility depending on the activity.

HOW TO FIND YOUR SIZE

The Clothing size chart is set up in a table. One axis will lay out the size, and the other will be the measurements in inches and centimetres. Look at the row/columns that best correspond with your measurements and you'll be able to identify your size.

IF YOU ARE IN BETWEEN TWO SIZES

It's up to you. If you like a tight fit? Go for the smaller size. Love a loose fit? Go for a slightly larger size.

HOW TO MEASURE YOUR BODY FOR CLOTHING SIZES

Chest: Place one end of the tape measure at the fullest part of your bust and wrap it around your body to get the measurement, keeping the tape parallel to the floor.

Waist: Place one end of the tape measure at your natural waist, you want to find the narrowest part of your waist. Don't go up too far or too low to get an accurate measurement. Don't hold the tape too tight or your clothing will be hard to move in.

Hips: Stand with your legs together and measure the fullest part of your hips. Be sure to go over your bottom as well. It might be challenging to keep the tape consistently level when you do it alone.

Inside leg: The inseam is the distance of your inside leg measuring from the top of your inner thigh to your ankle. It is easiest to measure the inseam based on a well-fitting pair of pants. Measure from the crotch to the cuff on the inside seam of the leg. The number of inches, to the nearest ½", is the inseam length. It's best to measure your inseam with a pair of shoes on so that you can ensure the hem hits at the right point on your shoe.

FOOT SIZE CHART

FIT TYPES

LOOSE FIT: A roomier and relaxed fit, styles might have a longer length than a standard fit.

STANDARD FIT: Not too tight, not too loose. Standard fitting apparel will fit over mid-layers without restricting movement.

SLIM FIT: Athletic fit, close to the body, allows the use of a baselayer when required. Ergonomically designed, performs with the body and doesn't restrict movement.

TIGHT FIT: Garment will fit the body like a second skin.
